Subject: West Lake Landfill project approach

Hi Ben,

Are you available on Wednesday morning or late afternoon this week to discuss the project approach for WLL? Or, would you like to handle the project approach scoping via email? I'm not very available for several days due to travel tomorrow and Thursday through Tuesday next week.

I'm in St. Louis and will attend the WLL CAG technical committee meeting tonight and will discuss the project approach with the committee. I'm also meeting with the chair, Ed Smith at 4 pm to get his input. The new TD is nearly identical to the previous TD and we will likely begin by writing a project approach that is nearly identical to the previous project approach. However, I am wondering if we should drop formal facilitation from the budget estimate. It is a significant cost that we have included every year, but not used.

Thanks.

Terrie
